**Press Release September 20, 2012**

**WHO: Central California Society for the Prevention of Cruelty to Animals**

**WHAT: Temporary Animal Control Services for City:**

**At the request of the City, we met earlier today to discuss the current animal control situation and the role the CCSPCA might play.**

**Because we are concerned about the future of our animals and the community we serve, we are considering a six-month extension of current animal control services.**

**We are very pleased that our meeting was productive and done with a much needed collaborative spirit.**

**Our service levels will continue as we work with the City over the next week. Additional meetings will be needed as final details are worked out.**

**As we work towards ensuring the welfare of our animals, we will continue to develop the preventative measures of our homeless and unwanted through increased spay/neuter, education, outreach, and adoptions.**
